Don Miller wins Environmental Leadership Award

Brodhead Watershed Association congratulates Don Miller of Cresco – a longtime BWA board member, events leader, and past president – for winning the **Thomas P. Shelburne Environmental Leadership Award**. He was honored Oct. 20, 2016, by the Pennsylvania Environmental Council.

Don is well-known for his willingness to share his environmental knowledge as he leads hikes and kayak paddles in a variety of settings. He is a member of the Monroe County Open Space Advisory Board, Paradise Township Environmental Advisory Council, Pocono Heritage Land Trust board of directors, and the Nature Conservancy’s Tannersville Cranberry Bog Preserve Committee.

While serving as naturalist at Monroe County Conservation District, Don was instrumental in getting the environmental education center started and integrated into local schools.

At the awards ceremony, Don told the *Scranton Times Leader*, “I’m humbled by this recognition. Actually, I don’t wish to be rewarded for anything. I just enjoy working with people and preserving the natural assets we have.”
