Webinar: The big deal about rain barrels

Have you ever wished for a more efficient way to water your garden, keep your car clean and save money all while helping the environment? A rain barrel can do all this and more.

On July 25, 2020, Brodhead Watershed Association, **in partnership with Monroe County Conservation District**, will host a webinar showing what rain barrels do, how to install one and to decorate it.

In this online workshop, part of BWA's Greening Mountainhome program, Darryl Speicher will talk about this method of collecting rainwater for many uses around the house as well as its pollution prevention abilities.

Thanks to a grant to MCCD from PADEP's Environmental Education program, the first 25 participants who request a barrel, pre-register and attend the webinar get a free rain barrel! In addition, MCCD asks that all workshop participants complete a survey, and a link to the survey will be provided July 25. Details on where and when to pick up the rain barrel will be provided after the workshop.

The webinar begins at 10 a.m. Saturday, July 25. Details of how to join the Zoom webinar will be emailed to registrants. Deadline to register is noon Friday, July 24, 2020.

To register, email your name and whether you'd like a rain barrel to info@brodheadwatershed.org.
