From the Brodhead Watershed Association

**FOR IMMEDIATE RELEASE**

Wednesday, September 29, 2021

## **BWA welcomes three new board members**

Brodhead Watershed Association has elected three new members for its board of directors, each with unique backgrounds and talents to support the organization's advocacy for clean water.

The election and induction were held at the annual BWA Members & Friends Celebration, Sept. 24, 2021, at Shawnee Inn.

The new directors are:

**Michelle Farley** of Paradise Township, a lawyer in practice with Fisher & Fisher Law Offices LLC. Her practice includes estate planning, family law and probate matters with a focus on litigation. She is a member of the Pennsylvania Council of Mediators, focusing on Pennsylvania family law matters. She is joining the board of BWA because of the need for public education about water resources and the need for action related to climate change.

**W. Michael Johnson** of Narberth Borough in Montgomery County has directed Michael Johnson Architect LLC since 2003. The practice specializes in research, planning and design for school districts, universities and corporate clients. Michael is deeply interested in the interaction between land development policy and environmental stewardship. He has a strong background in property, land use and governance issues facing nonprofit boards.

**Adam Moser**, a lifelong resident of Monroe County and alumnus of East Stroudsburg High School, has long been a local advocate of smart growth planning and open space preservation as a volunteer and as a former legislative assistant to Sen. Lisa Boscola. He participated heavily in the Monroe County Open Space Initiative and was one of the youngest participants in the planning of Monroe2020. He was formerly chair of the Upper Brodhead/Paradise Creek Greenway Committee, formerly vice chair of the Monroe County Open Space Advisory Board & Eastern Monroe Regional Open Space Committee, past member of Price Township's Planning Commission, Open Space Committee and Comprehensive Plan Committee, and of the East Stroudsburg Area School District Strategic Planning Committee.

Brodhead Watershed Association is a nonprofit environmental organization formed in 1989. BWA is dedicated to protecting and preserving water resources and the environment of the Brodhead watershed, and the water quality of the Brodhead, Cherry, Marshalls, McMichael, Paradise and Pocono creeks and their tributaries. BWA assists municipalities, residents, businesses and groups with protecting natural resources through education, workshops, seminars, public programs and stream monitoring.
