Note 1 – Nature of the Organization:

The Brodheads Watershed Corporation ("the Organization") (DBA Brodhead Watershed Association) was organized to promote and preserve the environment of the Brodhead watershed and the water quality of the Marshalls, McMichael, Paradise, Cherry and Brodhead creeks; promote the natural bounties thereof; provide educational materials on the benefits of and methods to achieve protection and preservation of the natural integrity of the watershed; and protect and preserve terrestrial and aquatic life in the watershed.

In order to further these purposes, the organization conducts educational and scientific activities within the meaning of section 501(c)(3) of the Internal Revenue Code of 1954, as amended including, creating public awareness of the need for and methods of protection of the Brodhead watershed; conducting scientific investigations and research; and such other means as are appropriate and consistent with the restrictions set forth in the Articles of Incorporation.

Note 2 – Significant Accounting Policies:

<u>Membership</u>

Any person who subscribes to the purposes and policy of the organization shall be eligible for membership. Membership fees are on an annual basis at various levels ranging from \$15 to \$500 per year.

Lifetime memberships have been discontinued; however, the organization has \$3,000 in life-time memberships which the board previously designated to be held in perpetuity, and any interest income to be used for general purposes.

Basis of Accounting

The financial statements of the Organization have been prepared on the modified cash basis of accounting used for federal income tax purposes. As such, certain revenues and expenses are recognized in the determination of income in different reporting periods than they would be if the financial statements were prepared in conformity with accounting principles generally accepted in the United States of America. Although income tax rules are used to determine the timing of the reporting of revenues and expenses, any nontaxable revenues and nondeductible expenses are included in the determination of net income. Accordingly, revenues are recognized when they are received, and expenses are recognized when they are paid. Liabilities for payroll taxes and the mortgage payable are the only liabilities accrued and reported.

Basis of Presentation

The Financial statements are presented in accordance with Financial Accounting Standards Board (FASB) in its Accounting Standards Codification (ASC) 958-205 *Financial Statements of Not-For-Profit Organizations* dated August 2016, and the provisions of the American Institute of Certified Public Accountants (AICPA) "Audit and Accounting Guide for Not-For-Profit Organizations" (the Guide).

Under the provision of the Guide, effective January 1, 2018, net assets and revenues, and gains and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, the net assets of the Organization and changes therein are classified and reported as follows:

- (1) <u>Net assets without donor restrictions</u> consist of all net assets which are expendable, at the discretion of the Organization's management and Board of Directors for carrying daily operations. The funds have neither been restricted by donors nor set aside for any specific purpose.
- (2) Net assets with donor restrictions consist of net assets that have been permanently restricted or limited by donor-imposed stipulations that either expire with the passage of time or can be fulfilled and removed by the actions of the organization pursuant to those stipulations. When a donor restriction expires (i.e., when a stipulated time restriction ends or purpose restriction is accomplished), net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statements of activities as net assets released from restrictions.

Revenue and Support Recognition

Unconditional contributions are recognized when pledged and recorded as net assets without donor restrictions or net assets with donor restrictions, depending on the existence and/or nature of any donor-imposed restrictions. Conditional promises to give are recognized when the conditions on which they depend are substantially met. Gifts of cash and other assets are reported with donor restricted support if they are received with donor stipulations that limit the use of the donated assets.

When a restriction expires, that is, when a stipulated time restriction ends, or a purpose is accomplished, net assets with donor restrictions are classified to net assets without donor restrictions and reported in the statement of Activities and changes in net assets – cash basis as net assets released from restrictions. Donor-restricted contributions whose restrictions are met in the same reporting period are reported as net assets without donor restriction support. Donations of property and equipment are recorded as support at their estimated fair market value at the date of the donation. Contributions restricted for the acquisition of land, buildings, and equipment are reported as net assets without donor restrictions upon acquisition of the assets and the assets are placed in service.

Income Taxes

The Organization was formed as a not-for-profit association by the Commonwealth of Pennsylvania and as such is exempt from the state income taxes. Further, The Organization was organized as a not-for-profit organization under Section 501(c)(3) of the Internal Revenue Code of 1986 and accordingly, is exempt from federal income taxes. In addition, the organization qualifies for the charitable contribution deduction under Section 170(b) (1) (A) and has been classified as an organization other than a private foundation under Section 509(a) (2).

Federal income tax returns, Form 990, of the Organization are subject to examination by taxing authorities, generally for three years after they were filed. Any penalties and interest assessed by taxing authorities are included in operating expenses. No interest and penalties have been recorded for the year ended December 31, 2020.

Tax exempt organizations that have income from sources outside of the exempt activities are subject to income tax. The Organization has not generated unrelated business income; accordingly, income tax expense was \$0 for the year ending 2020.

Property, Plant & Equipment

The Organization's policy is to capitalize property and equipment purchased in excess of \$5,000; property and equipment donated are recorded at fair market value at the date of donation. Property and equipment are depreciated using the straight-line method over their estimated useful lives. Major repairs, which significantly extend the useful lives of assets, are capitalized, and depreciated over the remaining useful lives of the specific assets.

Property and equipment acquired by the organization are considered to be owned by the organization. However, various funding sources may maintain an equitable interest in the property purchased with grant monies as well as the right to determine the use of any proceeds from the sale of the assets. Assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire property and equipment are reported as restricted support. Absent donor stipulations regarding how long those donated assets must be maintained, the Organization reports expirations of donor restrictions when the donated or acquired assets are placed in service as instructed by the donor. The Organization reclassifies net assets with donor restrictions to net assets without donor restriction at that time.

There are no depreciable property or equipment as of December 31, 2020, therefore depreciation expense for the year was \$0.

New Accounting Pronouncement

In 2016, FASB issued ASU 2016-14, Not for Profit Entities (Topic 958) – Presentation of Financial Statements of Not-for-Profit entities. The update addresses the complexity and understandability of net asset classification, deficiencies in information about liquidity and availability of resources, and the lack of consistency in the type of information provided about expenses and investment return. Brodhead Watershed Association has adjusted the presentation of these statements accordingly.

Donated Services and Non Cash Donations

The Organization received donated services from volunteers in order to fulfill its mission. No amounts have been recognized in the accompanying statement of activities because the criteria for recognition of such volunteer efforts have not been satisfied. Any actual donated materials, supplies and other items have however, been recognized in the financial statements at an arms-length cost.

Measure of Operations

The statement of activities – cash basis reports all changes in net assets, including changes in net assets from operating and non-operating activities. Operating activities consist of those items attributable to Brodhead Watershed Association's ongoing activities. Non-operating activities are limited to resources that generate return from investments, endowment contributions, financing costs, and other activities considered to be of a more unusual or nonrecurring nature.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Advertising

The Organization follows the policy of charging the costs of advertising expense as paid. The advertising expenses for the year ended December 31, 2020 was \$550.38.

Allowance for Doubtful Accounts

The Organization does not maintain any Accounts Receivables and therefore no allowance for doubtful accounts is deemed necessary.

Note 3 – Financial Assets & Concentration Risk

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Organization considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents. Cash refers to funds held in demand accounts, all of which are held at local commercial banks. The Organization maintains accounts at local banks, where each account is insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000 (per depositor). The Organization did not exceed this insured limit at any time during the year ending December 31, 2020.

Concentration of Revenues

The Organization has been awarded grants from PA Department of Conservation and Natural Resources, Department of Community and Economic Development, The Hughes Foundation, National Fish and Wildlife Foundation, William Penn Foundation and other organizations to subsidize program costs. Such grants are recognized as revenues when they are received.
