As a property owner in the Brodhead watershed, I agree to allow volunteers from the Brodhead Watershed Association Streamwatch Program access to my property on a monthly basis for the purpose of recording temperature, pH, nitrate and phosphate, and other testing protocols. I understand that the information collected will be use to establish a baseline profile of the streams and to determine trends in the watershed. I also understand that the volunteers have received appropriate training and will work under protocols established by local and state volunteer monitoring programs.
